This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## INTRODUCTORY NOTE.

This Supplement (No. 2) to the July, 1918, Edition of the Food Supply Manual contains all the Orders of the Food Controller and those of the Local Government Board ancillary thereto which have been made during the period January 1st to May 10th, 1919, and which are now (May 10th, 1919), or are about to be, in force. The Orders of the Food Controller appear at pages 1 to 120 and are printed in the sequence in which they were issued as Statutory Rules and Orders. In each case the full text of the Orders in force is printed, with the exception that where an amending Order provides for the incorporation of the amendments in any reprint of the principal Order, the principal Order is here reproduced as so amended and the amending Order is omitted.

The Supplement further contains a Chronological Table of the Food Controller's Orders (pages v to xiii) issued during the period covered by this volume, arranged on the same plan as that adopted for the Food Supply Manual. This Table shows which of the Orders have been revoked or amended, and by what Orders. The title of each Order which has been wholly revoked is printed in italics. The number which follows the title of each Order is that under which it has been numbered as a Statutory Rule and Order.

At pages xiv to xxviii there appears a statement showing how the Orders printed in the Food Supply Manual and in the First Supplement, dated December 31st, 1918, have been amended or revoked by the Orders in this Supplement, and a reference to this statement will readily furnish any information which may be required regarding the variations which have been made to May 10th in the Orders included in the Manual and in the First Supplement.

A Classified List of all Orders of the Food Controller which are now (May 10th, 1919) in force or coming into force and certain Orders of other Departments ancillary thereto, is included at pages xxix to xliv.

Orders which have been wholly suspended by General Licence of the Food Controller will be found in a separate table, pages 123 and 124, but General Licences, affecting part only of an Order, will be found under their respective Orders in this Classified List. The Orders are classified in groups on the same plan as that adopted in the similar list which appeared in the Food Supply Manual, with the exception that "Eggs" has been removed from Group (10) "Meat and Cattle and Eggs" and given an intermediate number, 6 (*a*), and Group (12) "Oils and Fats" and Group (15) "Seeds and Nuts" are combined to form one Group headed (15) "Seeds, Oils and Fats." The title of Group (10) is altered to "Meat and Live Stock."

In all tables the Statutory Rule and Order numbers have been arranged as far as possible in column and the principal Orders are printed in distinctive type to assist ready reference.

the person charged with such offence shall be entitled to be discharged from the prosecution.

Contracts.

8. (*a*) (i) Where milk is sold wholesale by or on behalf of the producer, the maximum prices chargeable for milk delivered during the months mentioned in the first column of the following table shall be at the rate per imperial gallon set opposite the same in the second and third columns thereof:—

| Month of 1919 in which delivery takes place. | Rate per imperial gallon for delivery in England or Wales (except in the case of milk produced in Cornwall, Devon, Dorset or Somerset, or in the Industrial Area of the West Riding of Yorkshire). | Rate per Imperial Gallon for delivery in Scotland. |

The rates applicable under this sub-clause are fixed on the basis that the milk is cooled over a refrigerator and that the milk produced in the morning is forwarded the same morning for delivery, and that the milk produced in the evening is forwarded the same evening for delivery.

(ii) Where the milk is not cooled and forwarded for delivery in the manner mentioned in sub-clause (*a*) (i) the maximum price for milk delivered shall be ascertained by deducting ½*d.* per imperial gallon from the prices specified in sub-clause (*a*) (i).

(iii) Where the milk is collected by the buyer from the premises of the seller, the maximum price shall be ascertained by deducting one penny per imperial gallon from the prices specified in sub-clause (*a*) (i).

(*b*) The rates applicable under sub-clause (*a*) (i) and sub-clause (*a*) (ii) of this clause are fixed on the basis that the milk is delivered at the seller's expense to the buyer's premises or (at the option of the seller) to the buyer's railway station, and that in the latter case all charges for transport beyond the buyer's railway station are borne by the buyer.

(*c*) No additional charges may be made for the provision of churns or other vessels.

4. Where milk is sold wholesale by or on behalf of any person other than the producer, the maximum prices chargeable shall, until otherwise determined pursuant to this Order, be as follows:— Wholesale sales by persons other than producers

* In addition to the net railway charges (if any) paid by the seller for transportation from the seller's station to the buyer's station.

(*c*) The rates mentioned in sub-clauses (*a*) and (*b*) are fixed upon the basis that the cost of providing churns or other vessels is borne by the seller; and where the milk is not sold on this basis, then the rate shall be ascertained by deducting from the rate applicable

under such sub-clauses the sum of ¼*d.* per imperial gallon.

Restriction on certain sales in licensed premises.

3. (*a*) A person shall not sell or offer to sell in any part of any licensed premises having a public bar, any spirits of a kind mentioned in Column I. of the First Schedule unless spirits of a kind and (where mentioned) of a strength set opposite to such spirits in Column II. of that Schedule are on sale by measure in the public bar of such premises.

(*b*) Nothing in this clause shall apply to sales in premises licensed only for sale for consumption off the premises.

Maximum price on sales other than to traders.

4. On the occasion of a sale of any spirits other than a sale to a licensed trader for the purposes of his trade, the maximum price shall be:—

(*a*) On a sale in a public bar for consumption on the premises, the price applicable according to Part I. of the Second Schedule; and

(*b*) On a sale in licensed premises elsewhere than in a public bar, for consumption on the premises, the price applicable according to Part II. of the Second Schedule; and

(*c*) On any sale whether in licensed premises or elsewhere for consumption off the premises, the price applicable according to Part III. of the Second Schedule.

(*b*) For the purposes of this Clause a sale on "in bond terms" shall include a sale in the year 1916, in which duty was paid by the seller and charged to the buyer on a separate invoice.

Provisions affecting sales.

7.—(*a*) On a sale (other than a sale in bond) of any spirits in a public bar of licensed premises, the maximum price at which the spirits may be sold in a public bar, and the strength or, where the maximum price is fixed in respect of a range of strength, the range of strength, shall be legibly marked:—

(ii) where such sale is otherwise than by bottle, on the receptacle or tap from which such spirits are drawn, in such manner as to be visible to the purchaser.

Provided that where all the spirits of one kind on sale in such bar are of one strength, or are of one range of strength, it shall be a sufficient compliance with this clause, as respects spirits of that kind, to state that fact together with the strength or range of strength and the maximum price therefor on a placard

in figures and letters of not less than 2 inches in length displayed in a prominent position in the bar.

(*b*) On a sale (other than a sale in bond) of any spirits elsewhere than in a public bar of licensed premises, the strength of the spirits shall be legibly marked where such sale is by bottle on a label attached to the bottle, and where such spirits are sold otherwise than by bottle on a label attached to the receptacle in which such spirits are delivered or from which such spirits are drawn.

(*a*) that he purchased the spirits in question from a person who sold it as spirits of a kind or strength which justified the price charged by the defendant; and

(*b*) that he had no reason to believe at the time of sale by him that the kind or strength of the spirits was such as prevented their being sold at the price charged; and

(*c*) that he has given due notice to the prosecutor of his intention to rely on the provisions of this clause;

the defendant shall be entitled to be discharged from the prosecution.

Ascertainment of price.

14. Where by this Order a maximum price is prescribed for spirits of a strength of 30 degrees under proof and spirits of a different strength are being sold, the maximum price of the spirits of a strength of 30 degrees under proof shall be increased or reduced proportionately to the increased or reduced percentage of proof spirits in the spirits which are being sold.

6. Where butcher's meat is obtained for household consumption from a supplier other than a retailer, it may be obtained free from the restrictions imposed by or under the above Order.

7. Butcher's meat may be obtained and supplied for the purpose of a catering establishment or institution free from the restriction as to amount imposed by Clauses 14 (*c*) or 24 (*c*) of
